## Ongrodur I, B rigid PVC Family of Products Report

BS EN 15102:2007+A1:2011, Decorative wall coverings. Roll and panel form states:

The product parameters shown in the table below influence the reaction to fire performance of wall coverings. When testing a product group for initial type testing, the provisions of this table shall apply.

Product parameters	Comments
Thickness	Generally, both parameters are correlated.
Mass per square metre	Consequently, take the mass per square metre into account at first, when carrying out tests for an extended application. If the results are not correlated, take the thickness into account separately from the mass per square metre.

Date: 08 December 2020
